TOPEKA, KS 66603-3754

PROJECT TITLE: eCitation Strategic Plan STRATEGIC PLAN PROJECT # 3-A
AGENCY: KCJIS/KBI APPLICATION DATE: 11/5/2008
AGENCY ADDRESS 900 SW Jackson Street, Room 751-S, Topeka, KS 66612
TELEPHONE: 785-633-7700 FAX: 785-291-3671 E-MAIL: Gordon.lansford@da.ks.gov

GOVERNMENTAL UNIT:
☒ STATE ☐ CITY ☐ COUNTY ☐ OTHER (Specify)

SUMMARY OF PROJECT:
Over the past two years, the traffic safety community has been discussing and reviewing potential options for how to capture, communicate, store and disseminate citation information across the state. As it has become apparent that a large number of options exist to serve this need, a statewide plan needs to be completed in order to provide guidance to effected state and local entities. Potential legislative issues also need to be identified. The target start date is December 1st with a completion date of June 30, 2009.

This project will provide guidance to the community by evaluating the options and providing guidance as it relates to the:

- Electronic Capture
- Transmission
- Storage
- Dissemination

of citation data across the state. Some local and state entities have already determined their own direction on these topics however many others are awaiting state guidance which this project would provide. The project will create a steering committee, conduct agencies interviews, and evaluate alternative e-Citation solutions. Issues such as routing, repository, and electronic signatures will be included in the project. The plan will provide for integration with both TRS and KCJIS.

PERFORMANCE MEASURES (See TRCC Director):
States are currently being requested to report on a handful of citation-based performance measures and the number of these performance measures is expected to increase in the coming years (e.g. number of seatbelt citation issued, number of speeding citations issued ,etc.). At this point, the lack of consolidated statewide citation records makes the task of gathering and reporting on these measures difficult. This project is the precursor to enabling automated collection of this data and thereby eased reporting on the information it provides.

BUDGET (from enclosed Schedule B (s))	CONTRACT PERIOD FY: 2009	CONTRACT PERIOD FY: 2010	CONTRACT PERIOD FY: 2011
COST CATEGORY			
(a) Professional Services	$75,000	$	$
TOTAL ESTIMATED COSTS	75,000	0	0
